### Check the multiplier events in Italy...

Fondazione ISTUD – Fondazione ISTUD per la cultura d'impresa e di gestione - Italian partner of OSTESA EU, has organised 3 multiplier events in the city of Milan. These events carried in July had around 46 attendees, from wide variety of backgrounds, namely trainers, consultants, entrepreneurs, HR specialists, coordinators of educational projects likewise SMEs managers and SMEs employees. More than half of the participants are satisfied or very satisfied with the overall events and they would recommend the project's results to be used by others.

### And OSTESA EU workshops in Portugal!

On July 27<sup>th</sup>, INOVA+ has organised a national event dedicated to SMEs in Portugal. OSTESA EU and the theme of organisational climate in SMEs were focused in the morning in which the president of the Portuguese National Association of Human Resources honoured us with a great opening stating that the dimension leadership will be of great relevance for companies in the upcoming years. Then, 2 workshops about the organisational climate's improvement process were delivered to around 45 participants in total. Attendees included SME managers, SME employees, directors, coordinators, trainers and consultants as well as HR staff.

### How to find the final project's results?

OSTESA EU final outputs will be available in all partners' languages in the project's website. Access to Download area and click in the [results](#) button. Embrace a positive change in your organisational climate and make use of OSTESA EU resources. You can check the overall process of organisational climate improvement in the final brochure [here](#) or contact the national partner [here](#) for more information on how you can implement and reap from OSTESA EU materials and tools. The project is now on its ending, but partners are more than happy to assist you in any regards of these results.
